

# **Revision and Wrap up/Module 5**

## **Introduction**

This module is intended to test and use all the skills and knowledge acquired in the previous months. It will generally comprise a larger project where trainees will work as a team and solve larger-scale issues.

## **Course/module Description**

Trainees will have the chance to assign roles within a team and recreate a real project. They will be required to evaluate client validation reports and provide feedback. They will also be required to know their production metrics.

## **Training topics**

- General review
- Other QC processes.
- Client validation.
- Reference material and assignments.
- Performance self-evaluation.
